TECHNICAL TRANSFORMATION

SAP IS JUST THE BEGINNING.

THE MAJOR DOS AND DON'TS.

The don'ts

- 1.** Don't underestimate your own business' complexity.
- 2.** Whoever orders "change" also gets "change".
Don't underestimate the necessity of change management.
- 3.** Don't underestimate the relevance of your key users.
- 4.** Don't hesitate to make fast decisions. Time is money.
- 5.** Don't trust on the opinion of your consultants too much.
Your own team's opinion matters as well.

The do's

- 1.** Strengthen your Enterprise Architecture skills and aim for a sustainable architecture.
- 2.** Your own project management team is essential. Choose carefully.
- 3.** Know your processes well. Clarify responsibilities to be able to transform them and own them in the future.
- 4.** Think end-to-end. Think cross-channel, cross-country, cross-divisional. Processes are the lifeblood of your organisation.
- 5.** Keep the standards.
Each non-standardized process costs money.

AND LAST BUT NOT LEAST...

D O

IT.

IT'S ON US!

**TRANSFORMATION
IS WHAT WE WANT
IT TO BE!**
